HAND PUSH LIFT

MULTIPLE STYLES OF CASSETTE

The Shade Cassette is a high-performance enclosure system designed to safeguard shade mechanisms while enhancing aesthetic integration.

MULTIPLE BOTTOM RAIL

Gracefully weighted bottom rail ensures flawless drape, its brushed stainless steel core wrapped in matching fabric. Precision-balanced to eliminate light gaps while whispering sophistication into every fold.

REMOTE CONTROL

Using a remote control to control the lifting and lowering of shades is a very convenient way to control the operation of shades. There are many styles of remote controls. The remote control has functions such as single channel, dual channel, multi-channel, etc., allowing you to control the operation of shades calmly.

POWER

SYSTEM ACCESSORIES

INTRODUCTION TO THE MOTOR

The motor provides running power for shades and needs to be used with a remote control. In this way, only the remote control is required to control the rise and fall of the shades. There are many models of motors to meet unused installation scenarios.

ZEBRA SHADES

Featuring alternating sheer and solid fabric bands, the Zebra Shades allows precise light control through adjustable alignment.

Pull up or pull down the shades to seamlessly shift between unobstructed views, filtered daylight, or full privacy. Its bold horizontal stripes add rhythmic visual interest to modern spaces.

Perfect for living rooms, studios, or areas demanding both style and adaptable functionality.

SHANGRI-LA SHADES
PRODUCT
FEATURES

Crafted with dual layers of sheer fabric seamlessly bonded to soft vanes, the Shangri-La Shades offers effortless light diffusion and privacy adjustment. Its streamlined design creates a clean, floating appearance

HONEYCOMB SHADES

HONEYCOMB SHADES

PRODUCT FEATURES

The design idea of honeycomb shades is inspired by the nest building of nature bees. The design of honeycomb shades imitates the polygonal honeycomb structure of bees. The honeycomb shades is elastic, has a strong structure, and can effectively insulate heat.

ROMAN SHADES

It creates a distinct visual effect through the clever combination of fabric and horizontal rods. At the same time, the pull-up operation method is more convenient and practical. Roman Shades add a unique and fashionable touch to the space.

DRAPE SHADES

The shades can effectively and quickly control the light in the room. When the indoor needs warm sunlight, we can open the shades. Our fabrics are made of high-quality materials, which can effectively block ultraviolet rays. The fabrics are not easy to fade and are durable.

SKYLIGHT HONEYCOMB

The unique honeycomb design structure is an effective thermal insulator that can prevent indoor heat from escaping in winter and prevent outdoor heat from entering in summer, achieving a constant temperature and sound insulation effect.
